

### Manufacturing Premium Glueboards for Insect Lights

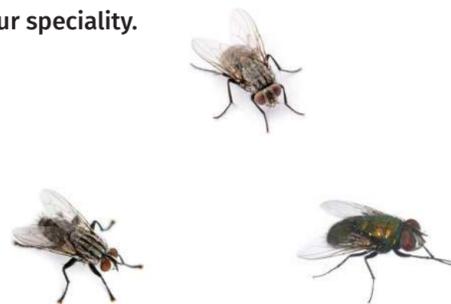

Our ProGlu® brand of professional glueboards are manufactured for all types of insect lights used in global markets. Our state of the art European manufacturing facility uses only high quality materials and offers complete flexibility.

ProGlu® professional glueboards are highly effective and easy to use, allowing accurate insect monitoring and preventing contamination.

Ideal for food environments; food industries, supermarkets, butchers, bakeries, restaurants, shops, hotels, etc.

We manufacture glueboards in a wide range of dimensions and materials.

Private label manufacturing is our speciality.

Environmentally friendly

Sustainable materials and responsible processes that reduce environmental impact without compromising on quality

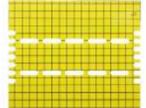

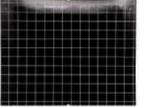

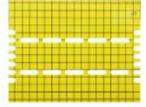

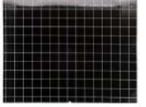

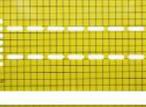

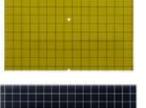

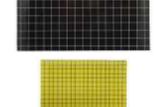

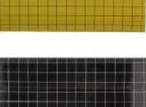

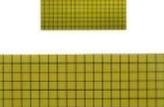

Private label manufacturing is our speciality

We manufacture glueboards in all dimensions and materials. Contact us for more information.
